WELCOME TO OUR NEW SITE!

SC House Calls' dedication to consistent, high quality care with a personal touch led to the creation of our new website. Our custom designed, responsive website was created to allow you to effortlessly navigate through all of our services so you can easily find the service you need from any device.

Our team shares a passion for helping seniors find their independence while meeting their health needs with top-notch care. We understand what a big step the move to assisted living is, which is why it is so important to us that you have the chance to meet our dedicated team of doctors. On our new website you can browse through their bios so you can get to know your caregiver. The patient portal lets you access every facet of your account in a user friendly way. With the addition of our new website, we are able to provide the highest level of customer service, share other customers' experiences and even request an appointment from the touch of a finger.

Take a minute to look around and check out what SC House Calls has to offer. Bookmark our page or give us a call to **improve your quality of life!**
